PowerUpEDU Copilot Academy

Elevate the learning experience at your institution with the PowerUpEDU Copilot Academy for Higher Education. This customizable professional development program empowers faculty, researchers, and administrators to harness the transformative power of AI in a strategically focused and academically sound manner. Our tailored learning progressions cater to your unique needs, whether you're exploring the initial applications of AI or seeking to refine your existing strategies. A core focus of the Academy is the responsible and ethical use of AI in higher education. Through our program, you'll gain the knowledge and skills to implement AI with appropriate safeguards in place, maximizing its effectiveness while ensuring alignment with your institution's educational mission. The Academy offers two distinct tracks: a faculty track focused on enhancing instructional and research practices, and an administrator track designed to equip leaders with the skills to make informed decisions about AI integration. This immersive training experience fosters a future-ready institution, empowering your academic community to harness the power of AI for more meaningful and productive teaching, learning, and research.

- **Track 1**: Institution and School Faculty

- **Track 2**: Administration and Leadership
