

Meet Möve, a second-generation system optimized for simplicity, portability, and reliability.

Möve

THE FIRST TRULY PORTABLE IMMERSIVE SYSTEM

Take Innovation Anywhere

With Möve, innovation goes beyond the gym. The unit fits in a car, moves with ease, and can be installed anywhere the action happens: gym, multipurpose room, cafeteria, auditorium...

A Flexible Solution

Perfect for schools, recreational centers, and organizations that couldn't previously accommodate a Lü system.

A Durable Ally for Meaningful Physical Activity

With a robust modular design, Möve withstands intense daily use while ensuring long-term reliability.

From Box to Play in Under 5 Minutes

Möve is ready in less than five minutes—just one cable and two buttons. Less setup, more fun.

Ready for Any Action

Stable, secure, and designed for movement, Möve stays firmly in place—even during high-energy activities.

The Interactive Playground is part of the PowerUpEDU Active Learning Practice. For more information on this solution or any of our solutions, contact PowerUpEDU.
