January 2025

THRIVE IN 2025!

PowerUpEDU works hard to retain your trust and confidence as your partner in the classroom. We are constantly evaluating new technology, curriculum, and professional learning solutions with the sole purpose of offering what will provide the highest return on YOUR investment.

We share our insights here, based upon our evaluations and experiences.

Transform Your Classroom

PowerUpEDU has partnered with district & school leadership to transform educational spaces into incredible new learning environments.

In 2024, the most notable transformations took place in Bartow County Schools, Georgia, where they remodeled all the district's Media Centers into STEM Learning Hubs. Additionally, PowerUpEDU and Bartow County created an amazing Innovation STEM Lab and Esports Arena located at the Bartow County College and Career Academy.

These facilities are shining examples of Transformational Learning Spaces.
