PowerUpEDU Copilot Academy

Bridge the gap to the future of education with the PowerUpEDU Microsoft Copilot Academy for K-12 Schools and Districts. This comprehensive, customizable professional learning program empowers educators and leaders at all levels to leverage the transformative potential of AI in an educationally sound and strategically focused manner. Our tailored learning progressions cater to your district's unique needs, ensuring a smooth and successful integration of AI, regardless of your current stage of implementation. A core tenet of the PowerUpEDU Microsoft Copilot Academy is the responsible and ethical use of AI. Through our program, you'll gain the knowledge and skills to implement AI with appropriate safeguards in place, maximizing its effectiveness while ensuring its alignment with your district's educational goals. The Academy offers two distinct tracks: a teacher track focused on enhancing instructional practice and a leader track designed to equip administrators with the skills to make informed decisions about AI integration. This immersive training experience fosters a future-ready school community, empowering educators to harness the power of AI for more meaningful and productive teaching and learning.

- **Track 1**: School and District Leaders
- **Track 2**: Teachers and School Staff
